Health4Me has three day-to-day benefit options, as well as two major medical event benefit options. Please check on your Health4Me membership card or membership certificate to confirm which day-to-day benefit option you have selected. You will also be able to see if you have selected any of the major medical event benefits, which major medical event benefit option you are on, and if your family members are covered.

Important note: You need to obtain authorisation for some of the Health4Me benefits in order for Momentum to pay for those claims. If you do not get authorisation, we will not pay for the claim and you will need to pay the healthcare provider's account from your pocket.

You may visit any doctor on our GP Network for GP visits and acute medication. Your Network GP visit can either be a face-to-face or video (virtual) call consultation. Acute medication is medicine like antibiotics that you need to take for a few days only. Your GP can prescribe medication for you from a list of approved medicines called a formulary. Your GP will either dispense the medicine to you after your consultation, or give you a prescription that you can take to a pharmacy to get your medicine. You can go to any pharmacy, but we suggest you go to a Dis-Chem, Clicks, MediRite or Pick n Pay pharmacy, as other pharmacies might charge an extra fee, which you will have to pay.

Your Network GP may also send you for basic blood tests and black-and-white x-rays, and may also perform minor medical procedures as part of a consultation in rooms, such as stitching or wounds and nebulisation. We will pay the account if the doctor is on the GP Network, and if the blood tests and x-rays, or minor procedures received are on the approved list that we cover.

The funeral benefit also includes a repatriation benefit, should you or your family, if they are included on your membership, pass away within South Africa or the neighboring countries, Botswana, Lesotho, Mozambique, Namibia, Swaziland or Zimbabwe, more than 100km from your normal place of residence. Special care is taken to consider particular customs and beliefs.

The repatriation benefit includes road or air repatriation of the mortal remains of the deceased to a funeral home closest to their normal place of residence, as well as assistance with the necessary documentation and co-ordination with the authorities to transport the deceased's mortal remains back to their normal place of residence. Transfer of the ashes of the deceased (in the event of cremation) to their normal place of residence is also provided.

The next of kin of the deceased will have access to a 24-hour bereavement counselling line. Where family members are required to identify the deceased or wish to accompany the deceased to the final funeral home, closest to the place of burial, one night accommodation to the value of R1 000 is arranged and paid for by Europ Assistance. Repatriation services are provided through Europ Assistance 24 hours a day, 7 days a week and 365 days a year.

If you pass away, the funeral benefit will be paid to your beneficiary or spouse. If one of your family members passes away, the benefit will be paid to you.

Funeral benefit claims have to be submitted within four months of the claim event date (the date of death). If you do not submit your claim within four months of the claim event date, we will not pay your claim.
