Your Medical Second OPINION EXPLAINED

Medical Second Opinion (MSO) is an international service offering from our business partner, Mediguidance USA, that provides a potentially life-altering service by supporting you in making the most informed decisions possible about your diagnosis and treatment options for serious illnesses.

Diagnostic errors on serious illnesses occur more frequently than is readily acknowledged. This is not unique to SA but an international phenomenon, recognised through several new scientific studies.

MSO ensures that diagnostic mistakes are minimised, offering the best possible health outcome for you and your family when major illness occurs.

Mediguidance was established in 1997 and their global network of World Leading Medical Research Centres (WLMRC) ensures that you can access the world's leading medical minds for a second opinion review when you are faced with a serious medical condition.

This potentially life-altering service is automatically available to all Bloom members. The qualifying criteria to activate a review are as follows:

- Availability of a local and recent diagnosis
- You have served your policy's 3 month waiting period (if applicable)
- The condition is not acute, requiring immediate treatment
- An in-person evaluation is not required (eg mental condition)

Once you have activated a MSO with us, a case manager will be assigned to you to assist in collating all your relevant medical records and then uploading these to the WLMRC you have chosen to have the MSO review done. Your results will then be reviewed and assessed by a multi-disciplinary team at the WLMRC, where after they will provide you with a comprehensive written report outlining any changes they have made to the initial diagnosis and their recommendation on the best treatment plan.

You will then be free to either discuss this with your local physician or to consult with a new physician - the choice will be up to you.

Mediguidance serves millions of lives in more than 50 countries worldwide and is recognised internationally as the world leader in their field. For more information please visit www.mediguidance.com. If you are a Bloom member and wish to activate a MSO, please contact us on www.cinagi.co.za/contact/
